F-7 II (3) Academic-II/ALU/ 2026-27/ 10703 Jaipur, Dated: 19 September, 2026

Principals,
All Affiliated Colleges,
Dr. Bhimrao Ambedkar Law University, Jaipur.

Subject: Nomination of Faculty for the Six-Day Online Faculty Development Programme on Law and Technology (16–21 November, 2026).

Sir/Madam,

The University is dedicated and committed to academic excellence in legal education in the State of Rajasthan. To further this commitment, all colleges affiliated with Dr Bhimrao Ambedkar Law University are invited to a capacity-building activity for law teachers, organised for their benefit and academic development in the most prominent and in-demand area of law teaching today.

Accordingly, the University, in collaboration with the Global Academy of Law-Tech Education and Research (GALTER), is conducting a Six-Day Online Faculty Development Programme titled **"Upgrading Law Teaching, Pedagogy and Research in the Age of Artificial Intelligence and Emerging Technologies,"** from **16 to 21 November 2026 (10:00 AM – 4:00 PM IST)**. The detailed programme brochure is enclosed for reference.

The University will shortly introduce an industry-focused Law-and-Technology course for law students.

The college principals are requested to nominate one or two faculty members to attend the faculty development programme to prepare them to deliver law-and-technology-related courses effectively to students in your Law College.

Please send nominations by **30 September, 2026, to fdpalugalter 2026 @ gmail.com.**

Registration for the Programme opens on **22 September 2026** and closes on **31 October 2026**. The enclosed brochure provides details of the registration procedure and fees.

We solicit the cooperation of all affiliated colleges in this important academic initiative.

(Veerendra Kumar Verma)

Live Sessions | E-Certificate on Completion

ABOUT THE ORGANISERS

DR. BHIMRAO AMBEDKAR LAW UNIVERSITY, JAIPUR

Dr. Bhimrao Ambedkar Law University, Jaipur is a State University established by the Government of Rajasthan and dedicated exclusively to legal education, research and training. The University affiliates and regulates law colleges across Rajasthan and works towards raising the standard of legal education in the State through structured academic programmes, faculty development initiatives, research promotion and continuing legal education.

The University is committed to preparing law teachers, researchers and practitioners who are equipped to respond to the constitutional, social and technological challenges of contemporary India, and regularly convenes seminars, workshops and capacity-building programmes for the academic community.

GLOBAL ACADEMY OF LAW-TECH EDUCATION AND RESEARCH (GALTER)

GALTER is a dedicated research-oriented educational academy with global footprints, focusing on the interface of emerging and highly disruptive technologies, the deep-tech ecosystem, and the promotion of effective ethico-legal frameworks, policy and governance models. GALTER draws upon an experienced pool of over 200 experts from education, law, science and technology, management, the judiciary and other inter-related sectors.

Vision

Recreating innovative global tools and techniques towards harmonisation of emerging technologies and their best application through a robust ethico-legal framework.

Mission

To promote world-class research and educational services for better understanding and application of emerging technologies and their regulation.

"Law and Technology are two streams that flow together, to energise and enhance each other."

— THE GALTER DOCTRINE

ABOUT THE PROGRAMME

Artificial Intelligence, machine learning, generative and agentic systems, blockchain, data analytics and allied emerging technologies are no longer at the margins of legal practice — they are reshaping how law is researched, drafted, argued, adjudicated and taught. Generative AI now drafts pleadings, summarises judgments, predicts outcomes and produces student assessments; regulators worldwide are simultaneously scrambling to govern the very tools they must rely upon.

For the law teacher, this creates a twin obligation. First, to *teach about* these technologies — the doctrinal, ethical and regulatory questions they raise. Second, to *teach with* them — redesigning pedagogy, assessment and research supervision for classrooms in which every student already carries an AI assistant. Neither obligation can be met by curiosity alone; both require structured, hands-on capacity building.

This six-day online Faculty Development Programme has been designed to meet exactly that need. Conducted by distinguished national and international resource persons drawn from academia, the judiciary, the legal profession and the technology sector, it combines conceptual grounding with practical demonstration, and closes with participant presentations so that learning translates into classroom practice.

OBJECTIVES

- To familiarise law teachers with the foundations, vocabulary and current capabilities of Artificial Intelligence and allied emerging technologies.
- To equip participants with practical pedagogical tools and techniques for integrating technology into legal teaching, assessment and evaluation.
- To strengthen competence in AI-assisted legal research, academic writing and research supervision, while safeguarding rigour and originality.
- To examine the ethical, regulatory and academic-integrity questions arising from the use of AI in legal education and the justice delivery system.
- To encourage curriculum innovation and institutional readiness for technology-integrated legal education.
- To build a continuing network of law teachers engaged with law, technology and governance.

WHO SHOULD ATTEND

- Faculty members of universities, law schools and affiliated law colleges
- Research scholars, Ph.D. candidates and post-graduate students of law
- Academic administrators, deans and heads of departments
- Legal professionals, judicial officers and law librarians engaged in teaching or training

PROGRAMME STRUCTURE

The Programme is conducted over six consecutive days from **10:00 AM to 4:00 PM IST**, comprising an Inaugural Session, technical sessions delivered by distinguished national and international resource persons, Panel Discussions, participant presentations and a Valedictory Session.

DAY **1** 16 Nov

Re-imagining Legal Education in the Age of Artificial Intelligence

Programme overview • Re-imagining teaching and pedagogy • AI literacy for law teachers • Teaching law beyond AI — socio-legal perspectives • Ethical challenges of AI in legal education and research

DAY **2** 17 Nov

Artificial Intelligence and Legal Research: Tools, Methodology and Global Practice

AI-assisted legal research tools and technology • Research methodology in the age of AI • Indian perspectives and practice • International perspectives and practice

DAY **3** 18 Nov

Constitutional Foundations, Internet Governance and Intellectual Property

Constitutional perspectives on artificial intelligence • The Constitution and emerging technologies • Internet and AI • Cyber security • Intellectual property rights in the AI era

DAY **4** 19 Nov

Data Protection, Cyber Legal Regime and Emerging Technological Challenges

Information Technology Act and the Digital Personal Data Protection Act • The cyber legal regime • Digital and cyber forensics • Emerging issues • Deepfakes

DAY **5** 20 Nov

Ethics, Governance and the Future of the Legal Profession

Panel discussions with distinguished national and international experts • Ethics in legal education and the legal profession

DAY **6** 21 Nov

Participant Presentations and Valediction

Extended participant presentations before a panel of experts • Valedictory Session and distribution of certificates
